LYON STEEL SEVEN AND EIGHT

LYON SEVEN-PERSON LOCKERS ARE DESIGNED TO ACCOMMODATE SEVEN INDIVIDUALS IN A MINIMUM FLOOR AREA.

SEVEN-PERSON LOCKER

Each small hat compartment has an individual flat key lock, the key of which will also fit the lock on the large compartment—but no other lock in the same section or any other section.

When key is inserted in lock of large door, it cannot be removed until door is CLOSED AND LOCKED.

Number Plates:

Small compartments lettered A to G inclusive. Number plate for door extra.

Large compartment is fitted with coat rod—no hooks.

Size: 36" wide, 21" deep, 78" high overall.
Finish—Lyon Green baked-on enamel.

To All Lyon Dealers

Announcing Three New Lyon Lockers

Gentlemen:

The addition of three new lockers to the Lyon Steel Equipment line is covered in detail in the attached combination supplement to Catalog No. 100 and Price List No. 101. Just as soon as possible, these new lockers will be illustrated in reprints of our catalog and included in re-issues of our price list. All prices shown are subject to your regular dealer discount of 30%.

LYON ELEMENTARY SCHOOL LOCKER:

Here is a locker that should be a source of real volume for you. The building program in elementary schools is tremendous and is just getting under way and the program will hit practically every community nationally.

This locker is the result of very careful study and long research on the part of Lyon. After we came up with a final design, we submitted it to school superintendents and school architects nationally, who gave this locker very hearty endorsement because:

- It provides low cost per pupil, with practically no upkeep or maintenance cost.
- It is not the costly type of unit with a fancy locking control that requires continuous maintenance.
- It takes up the minimum amount of space with maximum utility.

These lockers will be available from scheduled manufacturing runs starting in September.

SEVEN PERSON AND EIGHT PERSON LOCKERS:

Two locker units that provide accommodations for seven persons or eight persons in a minimum floor area.

This type of locker unit has wide appeal and demand in all types of public utilities, department stores, retail stores, where compact clothing storage is a "must".

These lockers will be available for shipment from stock - starting in September.

Announcement of these additions to Lyon's volume line of lockers is confirmation of the promises we have made to continue to add products with volume sales possibilities, to an already extensive line of steel equipment.

Very truly yours,

LYON METAL PRODUCTS, INCORPORATED

P.S. Prompt Shipment - all lockers shown in catalog #100 now available within thirty days from receipt of your order.
